

FYI: Here's a powerful story concerning 'Broken Clay' in a nutshell

*The original full feature Broken Clay movie was filmed in 2018

*During Editing, many of the video files were found to be lost and broken. This was so heart-breaking because everyone (cast & crew) worked so hard on this movie

*UTR Films hired another different Editor (Timothy Lee) in 2019. Since many of the original video files from 2018 were found to be lost and broken, I asked Tim Lee, if there were enough files salvageable enough to at least make a short Trailer since everyone (cast & crew) worked so hard on this movie because UTR Films wanted to at least give everyone something, and, Tim Lee, said yes

*Thanks to Tim Lee, he was able to create a Short Trailer from what he had to work with so, Tim Lee, took a Broken - Broken Clay and created this Short Broken Clay Trailer

(NOTE: The newer full feature Broken Clay movie will be re-filmed later in the future)
